SPEED OF HORSES. There is nothing that is attracting so much actention as the extraordinary speed developed by the horses of our country at the present time.

It is a remarkable fact that we find them Troiting down to Tauk 1:17, 1:14, and even showing a speed down to Two Minutes; and it is admitted that it is the annileasition and careful adjustments of BOOTS BOOTS

that increases the speed of the horse—the Weight
Boots giving action to the Limbs and the Shin;
Passing and Quarter Boots affording protection.
I would, therefore, invite the public and those
using young horses to my
